

February 16, 2026

Dear valued ADCL customer;

We are contacting you to inform you of a change in ADCL fees that will be implemented effective **July 1, 2026**.

While we understand fee increases are never a welcome change, due to the ever-rising cost of doing business, they are necessary for all businesses, including ours. Our prices reflect our structure: we are mandated to be strictly a cost recovery operation. We charge only what is required to provide the high-quality service necessary and our price increases match the increased costs since our last price increase.

Below is a summary of our fee increases.

ADCL Service	2025 Fee	2026 Fee	% Increase
First External Beam Ionization Chamber Calibration Point	\$1030	\$1085	5.3%
Additional External Beam Ionization Chamber Calibration Point	\$405	\$425	4.9%
First Electrometer Scale Calibration	\$250	\$265	6.0%
Each Additional Electrometer Scale Calibration	\$110	\$115	4.5%
First LDR Calibration Point of Well-Ionization Chamber	\$620	\$655	5.6%
Each Additional LDR Calibration Point of Well-Ionization Chamber	\$280	\$295	5.4%
Calibration of Brachytherapy Source	\$690	\$805	5.6%
Replacement of Electrometer Battery or Batteries	\$85	\$90	5.9%
Shipping and Handling (Small Box)	\$45	\$50	11.1%
Shipping and Handling (Large Box)	\$75	\$80	6.7%

We understand that advanced budgeting is always a necessary consideration. **Instruments delivered to us before the close of business on June 30, 2026 will receive the current pricing.** Additionally, for any quotes we process before the close of business on June 30, 2026, we will honor the current pricing for 30 additional calendar days.

We sincerely thank you for being a part of our ADCL family. It is our pleasure to serve you. Please contact us should you have any questions or concerns as we are always happy to help in any way possible.

Very best regards,

Dr. Stephen F. Kry, Ph.D.
Laboratory Director
